AT SUNDAY-SCHOOL.

[It is proposed in this department to print suggestions of topics for discussion in class work: usually under one or more of these titles: The international Lesson. Theological Belief and Religious Belief. Signed contributions of not more than one hundred words under any one title are solicited. The names of writers are requested for reference, not publication.)

INTERNATIONAL LESSON: September 22. "Temperance Lesson," Prov. 23: 29-35. Lesson Radings: Amos 6: 1-7. Neh. 1; 1-10, Prov. 1; 10-23, Luke 2 1; 25-36, Rom. 13: 8-14, 1 Cor. 8. SUGGESTED TOPICE: The lesson wares

us against the excessive use of wine lest we become drunkes and do toolish acts. The lesson readings also warn just as sherply against excessive idleages, decossive rich eating, excessive greed of gain, excessive eares of life, excessive strife, excessive envying and excessive liberty. Let not the one who never uses wine to exceen think that he or she is therefore temperate, unless also tempopule to all those other ways.

RELIGIOUS BELIEF-Concerning the obligation and practice of righteousness. The object of discussing differing religious beliefs is to determine which of them accords with the general or fundamental teaching of Scripture, and thereby to develop an active, carsest, personal righteousness, and to exert an influence for righteousness at all times and in all influence for righteousness at all times and in all earnest, personal righteousness, and to exert an influence for righteousness at all times and in all places. Belief ("faith) without works is dead." In the case of religious belief "work" is the use of the physical, mental, and moral powers which God has given you, in accomplishing the righteousness which He demands of you toward others, the same as you demand of others toward

1.-I believe that the intemperate use of intextesting drink is the one great evil of society, working alarming un-

2.- I believe that excessive idleness, giuttony in a large majority of homes of the "well to do," excessive greed of gain, excessive anxiety, excessive strife, excessive envying, and excessive use of liberty, are working quite as great suffering, injustice and harm of all sorts, as drunkenness.

State Politics.

The Republican State Convention will be held at Trenton on Thursday of next week. It is accepted as a settled fact that Franklin Murphy of Essex County will be the unanimous nominee of the The easy manner in which the nomi-

nation has glided towards Mr. Murphy All Kinds Bologna, has led to some misgivings on the part of timid Republicans who fear that the absence of a healthy contest for the honor admits of the interpretation that the chances of an election are not rosy. Against such a pessimistic view of the situation it may be said that Franklin Murphy's position in the Republican party in New Jersey is not an ordinary one. If he was not in the field there would be such a contest in the Republican ranks as would shake the State from one end to the other, but every Republican party leader and party worker in every county in the State concedes that Mr. Murphy is deserving and has earned a testimonial of appreciation from the Republicans of New Jersey, and no more fitting and graceful way of manifesting that impression could have been conceived than the unanimous impulse that has taken possession of the party throughout the State to confer upon Mr. Murphy the highest honor that can be bestowed by the party in the

Some of the Essex County Republican leaders have advised against Mr. Murphy's nomination, not from personal feeling, but from a fear that his candidacy will not be a success in Essex County. That is, of course, a matter of opinion, and even Mr. Murphy will admit the element of danger to party success in tals county on account of the attitude of the leading spirits in the trades councils and labor organizations.

The appearances up to a very recent of the labor organizations against the Republican party. Some Democrate have recently gained predominating influence in labor circles and have led the workingmen's minds away from the conditions of a few years ago, when the Republican party came to the rescue of an idle and hungry army of workingmen and changed a condition of misery and want to one of comfort and satisfaction. Some trifling incidents in Mr. Murphy's ong and successful career are being seized upon by subtle Democrats now posing as the friends of labor. These incidents are being magnified into great offenses against organized labor, and it is now claimed that the labor vote of

Easex County will be arrayed against the Republican ticket. But it may turn out that a vigorous exposure of the wiles of the Democrate who are endeavoring to win the labor vote away from the Republican party will have the effect of causing the rank and file of the labor organizations to halt and apply Patrick Henry's method of getting at the true state of affairs. If, like the celebrated Virginian, the labor organizations of Essex County forecast the future by the experience of the past, there will be no stampede of wage workers from the Republican to

the Democratic party.

The factional fight between the Essex and Hudson County Democrats waxes hotter and hotter as the date fixed for the State Convention draws nearer. The popular impression is that the Hudson County Democrats want revenge for the defeat of the late Leon Abbett for United States Senator by James Smith, Jr., of Essex County. Smith faction had declared against Seymour as the party candidate for Gover-

To inflict the greatest possible humiliation on Senator Smith and his faction, Robert Davis, the Hudson County leader, took up Seymour of Essex and has forced him in the front rank of aspirants for the Democratic nomination. The Smith men have howled and threatened, but Davis has stood firm, and it looks as Take Laxative Bromo Quinine Tablets. All if the Hudson County leader's assertion druggists retund the money if it Lies to cure that none but "back numbers" in the

Democratic party were opposed to Seymour is likely to be verified.

The Seymour men have been making some calculations as to his possible showing on the first ballot, and their figuring makes the Mayor almost a winner, but in this case there may be a hitch somewhere. This is one of the calculations made at the big outing of the Bobert Davis Association last Wednesday, when so many thousands of the faithful followers of "Foxy Grandpa" were on hand to help the boom of the Mayor: Hudson 172, Bergen 63, Burlington 42, Hunterdon 29, Middlesex 45, Monmouth 57, Union 57, Sussex 21,

Warren 27, total 513. There are those who declare that if this is all the Seymour followers can count they are besten siready, for they say there is no possibility of either Sussex, Warren, Hunterdon or Burlington going to the Newark man on the first ballot. On the other hand, there are some who claim that Passale will go to date indicated a movement on the part Seymour after the Brat ballot, but H tainties of the situation since it is likely that State Chairman Gourley will remain in his position, and that his county will do pretty nearly as he and former Senator Braun and Mayor Bincheliffe desire. As all have decided leapings toward Senator Smith, it is bardly probable that the vote of that county will be counted in the Seymour column so soon, if at all. The Gioucester County men are still hopeful that the lightning may strike former Congressman Thomas M. Ferrell, and they will perhaps send a solid delegation for him, out former Judge Howard Carrow seems to be gaining strength as the days go by, and he has the aid of some very shrewd leaders, who will press his ciaims before the State leaders when they gather bere for the Convention. If either Perrell or Carrow comes here with a solid South Jersey delegation at his back he will come very near impressing the leaders with the idea that it would be good politics to give the lower end of the State the nomination

this year, especially as there appears to be no present hope of uniting all the factions upon a North Jersey man. With Carrow and Ferrell out there might be a chance of agreeing upon another equally strong man before the people, and in that event Vice-Chancellor Alfred Reed, who, when a Justice of the Supreme Court, had the South Jersey ctrouit and won the admiration of the people there, would loom up. He is immensely popular and would command the respect and confidence of the voters of the State without regard to political ties, and it would appear that he is the sort of man the Democrate need to name at this time. Whether the Vice-Chancellor will accept the nomination, however, is as yet unknown and the other difficulty in the way is the widespread sentiment in the party ranks against naming any one who may now hold an official position. The disaster attending the nomination of Chancellor McGill six years ago and the more recent failure of Prosecutor Crane would seem to act as an active deterrent on any proposed action along

TO CURE A COLD IN ONE DAY

Inter-State Fair.

Monday, September 30, the opening day of the 20th Century Inter-State Fair at Trenton, is to be "The Day of Everything." Secretary Mahlon B. Margerum has secured for that day a greater number and variety of attractions than have ever been presented in one day at any fair in this part of the country. The usual industrial and artistic features of the big exposition and the daily vaudeville programme will be assumented by five hours of entertainment on the big open-air stage in front of the grand stand that will not be given on any other day of the fair.

For the regular vaudeville programme such noteworthy acts as Prof. Little's bomb-bursting ascension to the clouds. Charles Marvelous Marsh's bloycle dive into a tank of water from a height of fifty feet, and feate of equal daring have been secured.

But for the special Monday bill, in addition to sixteen vaudeville acts. there has been arranged a big programme, which includes amateur cycle races, for which prizes aggregating \$500 are offered; a real fox hunt by the Mercer County Fox Hunting Club; a tenmile motor-paced bicycle race between the stare, Kramer and McFarland; a tem-mile motor tandem race in which Hensbaw and Hedstrom have gueranteed to beat the world's record of thirteen minutes; a borse show and parade for valuable prizes, and as exhibition drill and skirmish by New Jersey's famous Second Regiment.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years it was supposed to be incurable.
For a great many years doctors pro-nounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and it therefore requires constitutional treatment, Hall's Catarrh Cure, manufactured by F. J. Chency & Co. Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it falls to cure. Send for circulars and testimonials. Address, F. J. CHENEY & OO., Toledo, O.

Sold by druggiets, 75c. Hall's Family Pills are the best.—Adet. For Over Fifty Years.
